

Star Gazing – Sharing Ideas

1. How did you find your star pattern on the star maps?
2. Was the name of your star pattern the same on Map 1 and Map 2?
3. Was your star pattern next to the same star patterns on Map 1 and Map2?

Why were they?

4. Do you think your star pattern always has the same sky place?

Tell why you think so.

5. What happens to the stars during the day?
6. How are the stars in your “constellation in a can” different from real stars?
