

Lesson 2

Sample *Sand Blasters* Cards

Card B should have a light amount of sand spread over at least half of the card. It should contain more sand than Card A. The grains of sand should also be larger than found on Card A.

Card A should have a minimal amount of sand on it. The grains of sand should be relatively small.

Card C should contain the most sand. The sand should cover the entire card. Large clumps/grains of sand should be visible.
