

## Lesson 2

### Sample *Sand Blasters* Cards

Card B should have a light amount of sand over the majority of the card. It should contain more sand than Card A. The grains of sand should be larger than found on Card A.

Card A should have a small amount of sand on it. The grains of sand should be small.

Card C should contain the most sand. The sand should cover the card. Large clumps/grains of sand should be spread throughout the card.
