

## Respiratory System Assessment Rubric

Level	Description of Level of Understanding
4	<p>Has a complete and detailed understanding of the topic:</p> <ol style="list-style-type: none"> <li>1. The purpose of the respiratory system is to supply oxygen to and remove carbon dioxide from cells throughout the body.</li> <li>2. Blood must travel to the lungs to get oxygen.</li> <li>3. Oxygen enters the body and goes to the lungs. The lungs contain tiny structures called alveoli. Oxygen moves from the alveoli into the bloodstream. The circulatory system carries/moves the blood to cells throughout the entire body.</li> </ol> <p>Does not express any misconceptions about the topic.</p>
3	<p>Has an understanding of the topic but is missing some of the following details:</p> <ol style="list-style-type: none"> <li>1. The purpose of the respiratory system is to supply oxygen to and remove carbon dioxide from cells throughout the body.</li> <li>2. Blood must travel to the lungs to get oxygen.</li> <li>3. Oxygen enters the body and goes to the lungs. The lungs contain tiny structures called alveoli. Oxygen moves from the alveoli into the bloodstream. The circulatory system carries/moves the blood to cells throughout the entire body.</li> </ol> <p>Does not express any misconceptions about the topic.</p>
2	<p>Has an incomplete understanding of the topic and/or has some misconceptions about the topic.</p>
1	<p>Understanding of the topic is incomplete and contains significant misconceptions.</p>
